Definitive Healthcare

Turn patient flow data into actionable network growth

Definitive Healthcare's new Network Scope Dashboard is built on a next-generation BI engine. Now, users can access a unified intelligence layer that delivers a faster, more scalable, and more intuitive way to analyze patient pathway data and network performance in real time.

Business impact

Reduce leakage by identifying and closing referral gaps

Accelerate growth through targeted provider engagement

Increase speed to insight with automated, unified analytics

Drive alignment across strategy, growth, and operations

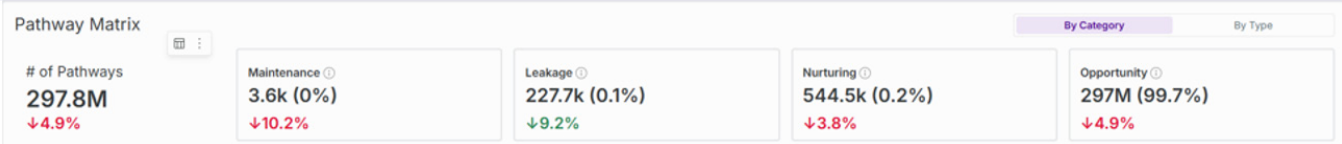

Why it matters

The Network Scope Dashboard bridges the gap between analysis and execution, so every team can see where to grow and act on insights immediately.

Prioritize growth with confidence

Assess retention, leakage, and volume trends with KPI cards and benchmarking views. Then, leverage the Pathway Matrix to pinpoint where patients are leaving and where you can grow.

Diagnose and validate opportunities

Apply advanced filters and analyze patterns in the Leakage Explorer and Specialty Explorer to understand where and why patients leave.

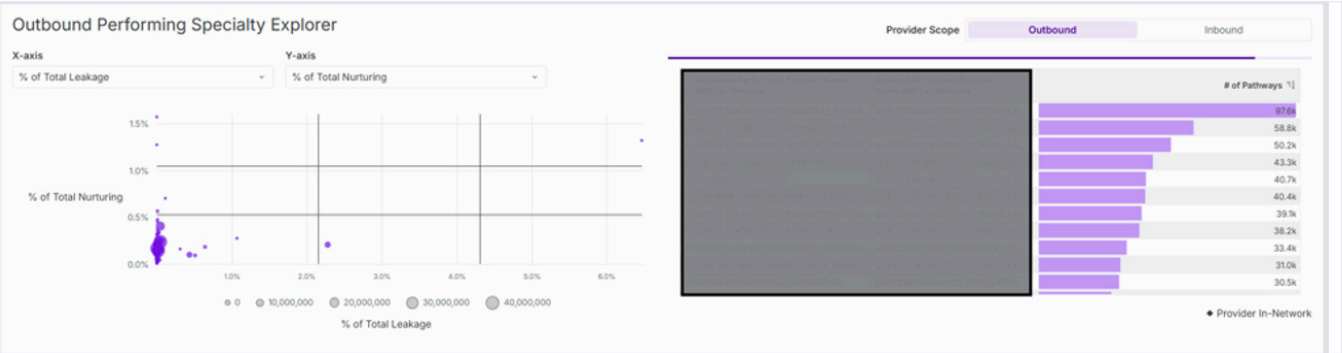

Target and activate provider growth

Use provider segmentation and referral insights to identify high-value providers, then build targeted outreach lists directly within the dashboard.

Optimize network performance and capacity

Analyze retention and pathway flows by specialty to identify coverage gaps, capacity constraints, and misalignment across the network.
